FIRST CLASS REFRIGERATION REFRESHER

This is a one-term review course designed for individuals with a Third Class Refrigeration Operator License or those who are in need of information to become a Second or First Class Refrigeration Operator. Course covers major industrial/commercial refrigeration systems, HVAC systems, ammonia systems, ice making, psychrometrics, low-pressure chillers, controls, new and old refrigerants, code and operator requirements. Class also includes hands-on time in our refrigeration lab. This course is for students who have previously had exposure in these subjects and need a review.
