

International Union of Operating Engineers Local 324

STATIONARY ENGINEERS EDUCATION AND APPRENTICESHIP FUND

GENERAL BUILDING MAINTENANCE

This course is designed to increase maintenance knowledge and skills. The course will cover areas such as electrical wiring, proper use of electrical testers and meters, lighting systems, basic plumbing, piping, drywall, motors, starter circuits and other areas of student interest. Students who complete the course will be fully prepared to design and implement a preventative maintenance plan for commercial or industrial facilities.
